# MOHD IMRAN

**SENIOR QA ENGINEER / SDET | AI & AGENTIC TESTING | AUTOMATION**

Delhi NCR, India | +91-9811716543 | ia12imran@gmail.com | LinkedIn | GitHub

## PROFESSIONAL SUMMARY

Senior QA Engineer / SDET with 5.4 years of experience across UI, API, Mobile and Database testing, with hands-on expertise in automation framework development and AI-assisted QA. Experienced in Cypress, Playwright, Selenium, Appium, Python, JavaScript, Postman, REST Assured, SQL and Jenkins. Built automation coverage from scratch, reduced defect leakage by 30%, and improved test-authoring efficiency by ~40% using LLM-assisted test generation. Prototyped autonomous testing using Playwright and OpenAI API and led a 3-member QA team in an Agile environment.

## CORE TECHNICAL SKILLS

| | |
|---|---|
| **AI / Agentic QA** | LLM-based Test Generation, Prompt Engineering, AI-assisted Testing, Agentic/Autonomous Testing, Exploratory AI Testing |
| **UI Automation** | Selenium WebDriver, Playwright, Cypress, Appium, POM, Reusable Frameworks, Cross-browser Testing, Parallel Execution |
| **Programming** | Python, JavaScript, Java, OOP Concepts, Automation Scripting |
| **API Testing** | Postman, REST API, REST Assured, Request/Response Validation, Authentication, Edge-case Testing |
| **Testing** | Functional, Regression, Integration, API, Mobile, Database, Exploratory, UI/UX, Smoke, End-to-End |
| **Database** | SQL, MySQL, Backend/Data Validation |
| **CI/CD & Tools** | Jenkins, Git, GitHub, GitHub Actions, JIRA, Agile/Scrum, GitHub Copilot, JMeter, k6 |

## PROFESSIONAL EXPERIENCE

**CAREERS360.COM — Senior QA Engineer / SDET** *Dec 2021 – Aug 2026* | *Gurugram*

- Built a Cypress automation framework from scratch for CMS workflows, achieving 30%+ automation coverage and migrating selected suites to Playwright for scalable, parallel execution.
- Reduced defect leakage by 30% through automation-first regression, shift-left testing and structured validation across CMS and LMS platforms.
- Integrated LLM-based test generation using ChatGPT/Claude to generate functional, negative and edge-case scenarios from feature specifications, reducing test-authoring effort by ~40%.
- Prototyped an autonomous QA agent using Playwright and OpenAI API to navigate new UI flows, perform exploratory validation and identify potential UI anomalies without predefined test steps.
- Executed API testing using Postman and REST Assured; validated request/response behaviour, negative scenarios and service workflows across CMS, LMS and student-facing services.
- Performed MySQL/SQL validation for exam, college, user-profile, content and role-permission data; investigated failures and supported root-cause analysis.
- Led a 3-member QA team across manual, automation and mobile testing; integrated Cypress suites with Jenkins CI/CD for automated nightly regression.
- Performed Android mobile testing using Appium across 15+ device/OS combinations, covering functional, compatibility and regression scenarios.

**EURONICS INDIA PVT. LTD. — QA Engineer**
*Oct 2018 – Aug 2019* | *Gurgaon*

- Executed functional, regression, integration, UI/UX and compatibility testing for a web-based CRM supporting customer and sales management workflows.
- Developed Selenium WebDriver automation scripts using Python for critical UI and regression scenarios and integrated execution with Jenkins CI/CD.
- Applied reusable automation and Page Object Model practices to improve maintainability of UI automation.
- Performed cross-browser/mobile compatibility testing and logged, prioritized and tracked defects in JIRA with clear reproduction steps.

## SELECTED PROJECTS

**CMS PLATFORM — CAREERS360.COM** | *Mar 2024 – Present*

- Designed and executed 200+ test cases covering functional, regression, API and database scenarios for a CMS managing e-books, articles, college data, examinations and role-based permissions.
- Built Cypress automation coverage and migrated selected workflows to Playwright for improved scalability and parallel execution.
- Used LLM-based prompting to generate edge-case and negative test scenarios from product requirement documents.
- Prototyped an autonomous Playwright-based testing agent capable of navigating CMS workflows and identifying potential UI anomalies.
- Validated backend data using SQL/MySQL and API behaviour using Postman and REST Assured.

**LMS PLATFORM — CAREERS360** | *Nov 2022 – Present*

- Developed end-to-end Cypress automation for authentication, registration, course enrollment, quiz submission and learning workflows.
- Executed functional, regression, integration and API testing for critical LMS functionality and validated application data using SQL.

**EURONICS CRM — SALES PLATFORM** | *Oct 2018 – Aug 2019*

- Validated authentication, role-based access, customer management, sales workflows and system integrations.
- Automated critical UI workflows using Selenium WebDriver with Python and integrated regression execution into Jenkins.

## AI & AGENTIC TESTING

- LLM-Assisted Test Generation — Generated functional, negative and edge-case scenarios from feature specifications using ChatGPT/Claude, reducing test-authoring effort by ~40%.
- Autonomous UI Testing — Prototyped a Playwright + OpenAI API agent for exploratory navigation and UI anomaly identification.
- AI-Assisted QA — Applied LLMs and AI coding assistants to accelerate test design, automation development and scenario generation.
- Dynamic Test Validation — Experience testing workflows where application behaviour and generated scenarios can vary dynamically, with emphasis on functional correctness and edge-case coverage.

## KEY ACHIEVEMENTS

- 30% reduction in defect leakage through automation-first regression and shift-left QA practices.
- 30%+ CMS automation coverage built from scratch using Cypress and Playwright.
- ~40% improvement in test-authoring efficiency using LLM-assisted test generation.
- Led QA activities across manual, automation and mobile testing for a 3-member QA team.

## EDUCATION

**B.Tech — Computer Science & Engineering** | Dr. APJ Abdul Kalam University (UPTU) | 2012 – 2016

**Class XII** | Uttar Pradesh Board | 2010

## CERTIFICATIONS

Manual Testing — QSpiders (2016) | Automation Testing — QSpiders (2016)
